Objective

Computer Science undergraduate skilled in Python, C++, React, and Web Development with hands-on project experience in responsive web applications and APIs. Seeking opportunities to apply problem-solving and development skills in real-world projects.

Education

- B.Tech in Computer Science
Dr. A.P.J. Abdul Kalam Technical University, Lucknow
2023 – 2027 (Expected) | 6.8 GPA
- Class 12
CBSE Board | 2023 | 74%
- Class 10
CBSE Board | 2021 | 82%

Technical Skills

- Programming Languages: Python, C, C++
- Frontend Development: HTML, CSS, JavaScript, Tailwind CSS, React JS
- Backend Development: Appwrite
- Tools & Platforms: Git, GitHub, VS Code

Projects

- Blogify – Full-Stack Blogging Platform (<https://bloging24.netlify.app/>)
Developed a full-stack blogging platform using React and Appwrite supporting user authentication, CRUD operations, image uploads, and rich-text editing. Implemented protected routes and optimized component rendering for improved user experience.
- Agency AI Website (<https://agency-ai24.netlify.app/>)
Built a responsive AI agency website using React, Vite, and Tailwind CSS with reusable components and modern UI design. Integrated Web3Forms for contact handling and React-Toastify for interactive notifications. Implemented dark/light theme functionality for improved user experience.
- Weather Forecasting Web App (<https://weather-forecasting24.netlify.app/>)
Developed a responsive weather application using OpenWeather API to fetch and display real-time weather data based on user-entered locations. Implemented dynamic UI updates and error handling using JavaScript.

Certificates

- TCS iON Career Edge – IT Primer (By TCS iON)
- Introduction to Generative AI Studio (By Simplilearn)
